

The Foundation for Tomorrow (TFFT) grants are aimed at empowering the future of developing nations through educational initiatives. We support orphans who would not be able to receive a primary, secondary or tertiary education. We not only make education possible for many of these orphans, we enhance the current education being provided. TFFT seeks to create environments in which peace, health and human welfare prosper as a result of a well educated population. Your shared miles help TFFT reduce travel expenses for grantee visits, leaving more resources for our orphan sponsorship and programs that lead to advancement in their education.
